Clinical Experience and Challenges

Amar Seva Sangam (ASSA) is a grassroots NGO located in Ayikudy Village in Tamil Nadu. ASSA is a leader in community rehabilitation, education, and empowerment of persons with disabilities in rural South India. Handi-Care Intl. – a Canadian charity – has been arranging clinical placements for PT and OT students at ASSA since 2006.

The centre includes:

- Integrated school
- Centre for early intervention for children with delayed development
- Outpatient rehab facility for stroke, neurological impairments and MSK injuries
- Post-acute care rehab centre for SCI
- Vocational training centre
- Village-based rehabilitation program
- Hostel and residential home for youth affected by physical and intellectual disabilities

Details of Clinical Work

- Post-acute care for adult male patients with spinal cord injuries (SCI)
- ! 20 in-patients undergoing an intensive 6 months to 1 year rehabilitation program
- Patients receive therapy 6 days per week
